against the background of long standing narratives in which twelver shi ism is viewed as fundamentally authoritarian the school of hillah and the formation of twelver shi i islamic tradition builds upon recent scholarship in the fields of religious studies anthropology and history to argue that twelver shi ism is better understood as a discursive tradition at a conceptual level this solves the basic problem of how to integrate the extraordinary diversity of twelver shi ism across time and space into a single historical category without engaging in a normative assessment of its underlying essence furthermore in light of this conception of tradition the school of hillah stands out as a seminal period in the archive of twelver shi ism though it has seldom been recognized as such in european language scholarship insofar as it gave birth to a conversation that would prove capable of encompassing the dynamism of twelver shi ism the school of hillah should be considered the formative period of twelver shi i tradition moreover when the tradition is conceptualized in this manner it is a bulwark against the very authoritarianism by which twelver shi ism has been characterized for so long

our conception of cultures and cultural change has altered dramatically in recent decades no longer do we understand cultures as isolated units rather we see them as hybrid formations constantly engaged in a multidirectional process of exchange and influence with other cultures yet the very process by which we represent these cultural transfers is itself subject to cultural

this book is a comparative analysis of the medieval sunni historiography of the caliphate of uthman b affan and the revolt against him by comparing treatments of uthman in pietistic literature and universal chronicles the work traces the gradual silencing of more critical accounts in favor of those that portray uthman as a saintly companion of the prophet muhammad through a comparative analysis of authors between genres and time periods this book shows how authors were able to convey their personal perspectives on important religio political tensions that emerged through the revolt against uthman namely the tension between sunnis and shiis religious and political authority and appeals to maintain stability and unity vs appeals for greater justice this last debate which in many ways began with the revolt against uthman has been repeated most recently in the arab spring this work therefore provides readers with helpful historical context for important contemporary debates
